

## DET-SAN

### MULTI-USE SANITISING DETERGENT

Revitalising, anti-static detergent for any type of surface: marble, terracotta, wood, linoleum, vinyl and laminate. DET-SAN is ready to use and, thanks to its special formula, effectively cleans treated surfaces, leaving a clean, fresh smell behind. With its practical spray dispenser, it is particularly recommended for: staircases, lifts, storage rooms, furniture, etc.

DET-SAN contains essential pine oil which has antiseptic properties.

### TECHNICAL CHARACTERISTICS:

- Easy to use
- Gives surfaces treated a shiny finish
- Ideal for removing dust or surface marks

### WHERE IT CAN BE APPLIED:

- Furniture in general
- Laminate flooring

Usage temperature (°C):	+10 - +25
Application/Equipment:	Clean cloth, mop
Storage (months): temperature between +5 °C and +25 °C	12
Disposal information:	Dispose of in compliance with the local and national regulations in force
Packaging:	750 ml spray bottles - Boxes of 10.
Usage limitations:	Allow the product to reach room temperature of 20 °C before application. Frost sensitive. Always use suitable personal protective equipment Always consult the technical and safety information sheets

### APPLICATION:

DET-SAN is ready to use. Spray the product onto the surface being treated and then spread it out using a paper towel or mop. This product does not require rinsing.

### NOTES:

DET-SAN can also be used on skirting boards, window ledges, frames etc. This is a multi-purpose polishing detergent that does not accumulate even when used frequently. An even surface is obtained without areas that appear more polished than others, something which can happen when classic waxing products are frequently used. It is particularly recommended for high-gloss flooring, where standard detergents can dull shine. DET-SAN also has a protective action on surfaces treated.
